

“ Eclipse has already delivered significant and tangible operational efficiencies, together with impressive reporting capabilities. ”

## Eclipse Broking

### Factsheet

Eclipse Broking is a fully integrated, web-enabled, 'one stop' solution for insurance and reinsurance brokers operating across the Lloyd's, Companies and international (re) insurance markets.

Eclipse Broking delivers complete support to the entire broking cycle from placement and billing, through to claims management and technical accounting, with flexible document production, configurable workflow and fast, real-time access to management information.

Eclipse Broking delivers significant cost and efficiency benefits through greater streamlining, enhanced client service and improved transparency across the business.

Combining robust and comprehensive functionality with process best practice, Eclipse Broking ensures your business meets regulatory reporting requirements with ease.

## Key Benefits of Eclipse Broking

### 'One Stop' Solution

Eclipse Broking delivers full, end-to-end support to your (re)insurance business which gives you greater transparency across the business.

### Comprehensive Functionality

Eclipse Broking manages complex risks including vertical placement, sectionalisation and subscription business.

### Powerful Reporting

Eclipse Broking delivers extensive and flexible reporting capabilities which allow you to make rapid decisions with confidence.

### Compliance & Control

Eclipse Broking allows embedded compliance and role-based access so you can manage your business proactively and securely.

### Improved Financial Management

Eclipse Broking handles multi-currency, pay-as-paid, principal-to-principal, 'atomised' accounting & processing which provides rigorous credit control and financial management.

### Increased Efficiency

Eclipse Broking is straightforward, easy to use and improves operational efficiency and control through better process management.

## Client Viewpoint

### Eclipse is a market leading broking solution

“Eclipse has already delivered significant and tangible operational efficiencies, together with impressive reporting capability, and our clients are now benefiting from major process improvement efficiencies.”

### Eclipse offers flexibility and growth

“We wanted a system that was future proof; that would be viable for the long term. We are a growing organisation and Eclipse Broking gives us the flexibility we need to adapt to the demands in the market. Eclipse Broking can cope with our entire business and our future growth.”

### Sequel has a proud reputation for on time, on budget delivery

“Sequel has delivered a product on time and on budget that meets all of our business and technology requirements. It is based upon an industry standard platform that is unique in its approach and capability.”
