

“Eclipse Annual Accounting is a market leading solution that forms a crucial part of our increasingly demanding reporting cycle.”

## Eclipse Annual Accounting

### Factsheet

Eclipse Annual Accounting is a standalone financial accounting solution which delivers a rules-based earnings engine for both insurance and reinsurance.

Integrating with Eclipse Underwriting or any other underwriting package, Eclipse Annual Accounting systematically calculates earnings on a movement basis, based on user-defined rules in a robust, transparent and fully auditable way.

Eclipse Annual Accounting significantly reduces the operational and reputational risks by replacing the traditional use of error-prone spreadsheets.

The end results are faster production of reports, greater levels of compliance and control, faith in your financial figures and more time available to analyse your performance.

## Key Benefits of Eclipse Annual Accounting

### Faster Reporting

Eclipse Annual Accounting delivers demonstrable savings in the time it takes to produce annualised financial reports.

### Greater Accuracy

Eclipse Annual Accounting provides fully automated procedures, which eliminate the human errors associated with using spreadsheets.

### Better Data Quality

Eclipse Annual Accounting eliminates the need for re-keying, which allows more regular analysis and greater improvements in source data.

### Greater Efficiency

Eclipse Annual Accounting delivers improved efficiencies so you can focus on your business and profitability rather than on report production and maintenance.

### Improved Transparency

Eclipse Annual Accounting is flexible and configurable, delivering a clear and granular view of your data.

### Complete Audit Trail

Eclipse Annual Accounting allows you to take the market's increasingly rigorous compliance requirements in your stride through tighter control.

## Client Viewpoint

### Eclipse delivers a clear audit trail and accurate data

“Eclipse Annual Accounting is a market leading solution that forms a crucial part of our increasingly demanding reporting cycle. We can now produce accurate data with a clear audit trail which will help us meet the market's increasingly rigorous compliance requirements.”

### Eclipse reduces reporting times and reliance on spreadsheets

“Eclipse Annual Accounting underpins our fact-based decisions and now gives us twice as much time for review and analysis of the accounting process than we had before.”

### Eclipse is a proven application; Sequel have a proven delivery record

“We looked at a number of options and we chose Sequel and Eclipse Annual Accounting for their proven capability. We needed a system that can be rapidly deployed and configured to our specifications, which Eclipse delivers.”
